**Subject:** Re: Final Meeting Summary for the Passaic River April 18 Municipality Meeting

Dear David,

Thanks for sending along a copy of the summary of the Passaic River Remediation and Restoration meeting on April 18th.

Next I want to thank you for arranging a site visit with Regional Director Steinberg here in the Ironbound. We had opportunities to discuss the project and review plans and maps in our office and then spend the second hour visiting the waterfront. He was very responsive to our work, and I think we have a new partner in moving from plans to realities. This would not have happened if you hadn't kept working on it all year. A very big THANK YOU!

Lastly, at the April 18th meeting they spoke about putting out the Focused Feasibility report by the end of May for comments. Do you know where that stands? Of course, we are eager to review it and make comments from our perspective.

How is your mother doing? I have so many friends with parents who are aging. It is a privilege, but often a worry to accompany them towards their "golden years".

As always, much thanks for your help.

Carol
